

The Everlast Group of companies are Canadian companies operating internationally on high-rise buildings, restoring masonry and concrete structures, and installing glass curtain walls.

Everlast's contracting experience during the past 30 years offers clients proven techniques and systems for building envelope and parking garage repair, in many cases unique to Everlast.

Our expertise with new construction window installation provides in-depth insight to probable window assembly leakage problems. This knowledge is beneficial to clients by permitting Everlast to provide sound and prompt solutions to window leakage on existing structures.

Our problem solving techniques and restoration systems approach place Everlast as a full service contractor for our clients. We demonstrate hands-on solutions with the services offered, including the following:

- Window system repair (recaulking and condensation control)
- Leaking crack and expansion joint restoration
- Concrete rehabilitation and protective coating application
- Waterproofing of above and below grade structures
- Masonry tuckpointing and building weatherproofing
- Parking garage deck repair and traffic bearing protection application

Everlast endeavors to be on the leading edge of technology concerning building repair and leakage control. In combination with technological advancements, Everlast is committed to safety. All of our company employees are fully trained in the operation of our equipment, systems, and the use of our materials and chemicals. Employees follow WHMIS (Workplace Hazardous Materials Information System) training, SAE (Suspended Access Equipment) training, and First Aid training.

**Everlast is a part of
the Toronto Construction Association.**

The Everlast Group of companies' experience in the construction industry and restoration sector is extensive, and predates its incorporation. The founder, Victor Boutin, as well as some of Everlast's top employees, have been in the industry the majority of their lives. Victor enjoys working hands-on, and prides himself in finding solutions to problems where others have been unable. Privately and Canadian owned and operated, Everlast has successfully completed a wide variety of projects.

Everlast's services have two main streams:

- i. New high-rise and medium-rise construction - providing mainly sealant, smoke seal, and foaming.
- ii. Existing high-rise and medium-rise construction, providing an extensive variety of services with respect to exterior envelope and underground garage repair.

Although these are the main foci, Everlast has handled a wide spectrum of projects and is always ready to handle any challenging projects that may come its way.

Everlast is in the process of developing the following list which details the types of work we handle:

Exterior Envelope:

Balcony repair	Brick replacement
Caulking	Foaming
Smoke seal	Waterproofing

Various concrete repair items, including:

Column	Reinforcing bars
Soffit	Surface
Thru-slab	Vertical/wall

Parking Garage:

Below / above grade	Exterior parking decks
Heated ramps	Roof slab
Traffic topping	Waterproofing

Again, various concrete repair items, including:

Column	Reinforcing bars
Soffit	Surface
Thru-slab	Vertical/wall
